*The NodOn® Soft Remote is a wireless and battery-less remote controller, EnOcean® compliant. The mechanical energy created by pushing the button(s) is transformed, via a revolutionary magneto-resistive generator, in enough electrical energy to send a radio frame to the controlled device. The Soft Remote allows to control any kind of EnOcean® compliant device, such as the NodOn® Smart Plug, or a Home Automation Gateway. Spill and shock resistant, the Soft Remote can be used anywhere in the house. Its embedded magnet allows to fix it everywhere, from the heater to the fridge door!*

## **Technical Data**

Power source - Magneto-resistive (no battery)  
4 buttons - 2 channels  
Embedded magnet for metallic surface sticking  
Spill and shock resistant  
Operational temperature - 0°C to 40°C - Altitude - 2.000m  
Radio protocol - EnOcean® - 868.3MHz - EEP - F6-02-01  
Range: 30m indoor  
Dimension : 56\*56\*20mm  
Warranty 3 years

## **Standard**

EN 301489-1 V1.9.2; EN301489-3: V1.4.1  
EN 62479: 2011-9  
EN 60950-1:2006+A11:2009+A1:2010  
EN 300220-1: V2.4.1; EN 300220-2: V2.4.1
